

Product Overview

Galil Motion Control is the leading supplier of high-performance, cost-effective and easy-to-use controllers with over 500,000 controllers installed world-wide. Galil's complete line of motion controllers includes single and multi-axis; bus-based and stand-alone; box-level and card-level controllers. The Accelera Series offers the highest speed and performance while the Econo Series is designed for the lowest cost. Galil's Single-Axis controller series offers cost-effective, compact solutions for single-axis applications. Each series is available in PCI and Ethernet/RS232 formats. Plug-in drives for steppers and servos provide a complete motion solution that saves cost, space and wiring. Galil's Pocket PLC series provides an intelligent and cost-effective programmable automation controller solution for handling analog and digital I/O.

Galil also provides software tools for its controllers including GalilTools for easy system set-up, communication and tuning. Other accessories include cables and interconnect boards for convenient prototyping.
